#### Dates

[An "**interest barrier observation date**" is

[, in respect of an interest payment date, each date or dates specified as such for such interest payment date in the Table below (subject to adjustment – see "*Disrupted Days, Market Disruption Events and Adjustments*" below)]

[in respect of an interest period and as the "range accrual" provisions apply, each [calendar day] [business day] falling from (and including) the first day of such interest period to (but excluding) the day falling [●] business days immediately preceding the last day of such interest period (the "**accrual cut-off date**") and in respect of each [calendar day] [business day] falling from (and including) the accrual cut-off date to and (including) the last day of such interest period, the accrual cut-off date shall be an interest barrier observation date for each such day. If, in respect of the or each interest barrier underlying, any such [calendar day] [business day] is [not a scheduled trading day for such interest barrier underlying or is a disrupted day for such interest barrier underlying ("**range accrual value what you can observation**") [not a scheduled trading day for any interest barrier underlying or is a disrupted day for any interest barrier underlying ("**range accrual move in block observation**")], then the interest barrier event observation date for [such interest barrier underlying] [all of the interest barrier underlyings] shall be deemed to be the immediately preceding [calendar day] [business day] that is [a scheduled trading day and not a disrupted day for such interest barrier underlying] [a scheduled trading day and not a disrupted day for every interest barrier underlying]. Therefore, an interest barrier event observation date may be the interest barrier event observation date for more than one [calendar day] [business day].]

An "**interest payment date**" is each date specified as such in the Table below.

[An "**interest valuation date**" is, in respect of an interest payment date, each date or dates specified as such for such interest payment

date in the Table below (subject to adjustment – see "*Disrupted Days, Market Disruption Events and Adjustments*" below).]

[The interest strike date(s) is [[●] [and [●]] [[●] scheduled trading days prior to[●]], in respect of interest underlying [●], [●] (specify for each interest underlying where different interest strike dates apply)] [each scheduled trading day for the interest underlying which is not a disrupted day for the interest underlying from [(and including)] [(but excluding)] [●] to [(but excluding)] [(and including)] [●] (subject to adjustment – see "*Disrupted Days, Market Disruption Events and Adjustments*" below). (specify for each interest barrier event and relevant performance-linked interest amount where different interest strike date(s) apply).]

Definitions relating to the determination of the [performance-linked] redemption amount due][, [or] entitlement deliverable in relation to physical delivery notes]

[The "**entitlement**" means, in respect of each calculation amount, an amount of the final performance underlying(s) determined by the calculation agent by reference to the calculation amount [converted into the currency of the calculation amount if necessary] divided by the redemption initial level of such underlying, expressed as a formula:

$$\frac{\text{calculation amount} [\times \text{fx}]}{\text{redemption initial level of final performance underlying(s)}}$$

[fx for the final performance underlying is either (a) 1, where such final performance underlying is denominated in the currency of the calculation amount; or otherwise (b) the rate specified for such underlying below:

final performance underlying	fx
	[●] [a reciprocal fx rate meaning 1 divided by] [the currency exchange rate for [●] into [●] published on [●] ] at [●] time on the relevant valuation date] [divided by the currency exchange rate for [●] into [●] published on [●] at [●] time on the relevant valuation date (as such fx is a cross-rate)]]

[The "**performance-linked redemption amount determined in accordance with the "put option" provisions**" means that the redemption amount will be a "put option" amount

[determined by the calculation agent to be the product of the calculation amount ("CA") and the sum of [●]% (being the "**relevant percentage**") and the final performance of the final performance underlying(s) (FPU) [multiplied by the final participation rate ("FPR")] [multiplied by the fx perf] [all adjusted by the adjustment amount] [(which [may] [will] be less than [the calculation amount] [●]), expressed as a formula:

$$CA \times ([\bullet]\% + \text{final performance of FPU})[\times \text{FPR}][\times \text{fx perf}][\pm \text{adj}]$$

[The final participation rate or FPR is [●]% [if a redemption [upper] barrier event has [not] occurred (*specify for each barrier event where different*)].] [The adjustment amount or adj is [●] [if a redemption [upper] barrier event has [not] occurred (*specify for each barrier event where different*)].]

(specify for each barrier event where different)]

[The "**performance-linked redemption amount determined in accordance with the "call option" provisions**" means that the redemption amount will be a "call option" amount

[determined by the calculation agent to be the sum of (a) the calculation amount ("CA") and (b) the product of the calculation amount ("CA") and the final performance of the final performance underlying(s) ("FPU") [multiplied by the final participation rate ("FPR")] [multiplied by the fx perf] [all adjusted by the adjustment amount], expressed as a formula:

$$CA + (CA \times \text{final performance of FPU} \times \text{FPR}) \times \text{fx perf} + \text{adj}$$

[The final participation rate or FPR is [●]% [if a redemption [upper] barrier event has [not] occurred (specify for each barrier event where different).] [The adjustment amount or adj is [●] [if a redemption [upper] barrier event has [not] occurred (specify for each barrier event where different).]

[Such redemption amount is subject to a [maximum amount (cap) of [●] [if a redemption [upper] barrier event has [not] occurred]] [minimum amount (floor) of [●] [if a redemption [upper] barrier event has [not] occurred]] [maximum amount of [●] and minimum amount of [●] (collar)] [if a redemption [upper] barrier event has [not] occurred] (specify for each barrier event where different)]

[The "**performance-linked redemption amount determined in accordance with the "call spread – put spread option" provisions**" means that the redemption amount will be a "call spread put spread option" amount

[determined by the calculation agent to be (a) the calculation amount ("CA") multiplied by (b) the call spread amount [multiplied by the call final participation rate ("FPR call")] plus<sup>11</sup> the put spread amount [multiplied by the put final participation rate ("FPR put")] [multiplied by (c) the global participation rate ("GPR")] [multiplied by (c/d) fx perf] [all adjusted by the adjustment amount], expressed as a formula:

$$CA \times [\text{Max}[\cdot, \text{Min}[\cdot, \text{Final Perf}]] \times \text{FPR call}] + [\text{Min}[\cdot, \text{Max}[\cdot, 100\% + \text{Final Perf}]] \times \text{GPR}] \times \text{FPR put} + \text{adj}$$

[The call final participation rate or FPR call is [●]% [if a redemption [upper] barrier event has [not] occurred (specify for each barrier event where different).] [The put final participation rate or FPR put is [●]% [if a redemption [upper] barrier event has [not] occurred (specify for each barrier event where different).] [The global participation rate or GPR is [●]% [if a redemption [upper] barrier event has [not] occurred (specify for each barrier event where different).] [The adjustment amount or adj is [●] [if a redemption [upper] barrier event has [not] occurred (specify for each barrier event where different).]

The "**FinalPerf**" means the final performance of the final performance underlying.

Therefore such redemption amount is subject to a maximum amount of

[●] and minimum amount of [●] (a collar)].]

[The "**performance-linked redemption amount determined in accordance with the "twin win option" provisions**" means that the redemption amount will be a "twin win" amount

[determined by the calculation agent to be the product of (a) the calculation amount ("CA") and (b) [●]% (being the "**relevant percentage**") and the absolute value (Abs) (meaning the positive percentage value of the percentage without regard to its sign) of the final performance of the final performance underlying(s) (FPU) [multiplied by the final participation rate ("**FPR**") [all multiplied by the fx perf] [all adjusted by the adjustment amount], expressed as a formula:

$$CA \times ([ \cdot ]\% + \text{Abs}[\text{final performance of FPU} [\times \text{FPR}]] [\times \text{fx perf}][+\text{adj}]$$

Such redemption amount is therefore subject to a minimum amount (floor) of [●].

[The final participation rate or FPR is [●]% [if a redemption [upper] barrier event has [not] occurred] (specify for each barrier event where different).] [The adjustment amount or adj is [●] [if a redemption [upper] barrier event has [not] occurred (specify for each barrier event where different).]

The "**performance-linked redemption amount determined in accordance with the "market timer option" provisions**" means that the redemption amount will be an amount

[determined by the calculation agent to be the product of (a) the calculation amount ("CA") and (b) 100% plus (i) the product of the final participation rate ("**FPR**") and (ii) the final performance of the final performance underlying(s) (FPU) and (ii) the market timer % [, all multiplied by the fx perf] [[and] all adjusted by the adjustment amount], expressed as a formula:

$$CA \times (100\% + \text{FPR} \times \text{final performance of FPU} + \text{market timer } \%) [\times \text{fx perf}][+\text{adj}]$$

[The adjustment amount or adj is [●] [if a redemption [upper] barrier event has [not] occurred (*specify for each barrier event where different*).]

The market timer % is, in the determination of the calculation agent, an amount expressed as a percentage equal to such redemption underlying's redemption initial level less its market timer redemption initial level, all divided by its redemption initial level, expressed as a formula:

$$\frac{\text{redemption initial level} - \text{market timer redemption initial level}}{\text{redemption initial level}}$$

[Such percentage is subject to a [maximum percentage (cap) of [●]%] [minimum percentage (floor) of [●]%] [maximum percentage of [●]% and a minimum percentage of [●]% (collar)]. (*specify for each barrier event where different*)]

[The final participation rate or FPR is [●]% [if a redemption barrier event has [not] occurred (*specify for each barrier event where different*)].]

[The "**performance-linked redemption amount determined in accordance with the "put call sum option" provisions**" means that the redemption amount will be a "put call sum option" amount

[determined by the calculation agent to be the product of the calculation amount ("CA") and the sum of (a) [●]% (being the "**relevant percentage**") and the capped final performance of the final performance underlying(s) (FPU) [multiplied by the final participation rate ("FPR")] and (b) the floored final performance of the final performance underlying(s) (FPU) [, all multiplied by the fx perf] [all adjusted by the adjustment amount], expressed as a formula:

$$CA \times ((([●]\% + \text{Min}([●]\%, \text{final performance of FPU}) \times \text{FPR}) + \text{Max}([●]\%, \text{final performance of FPU})) \times \text{fx perf}) [+ \text{adj}]$$

[The final participation rate or FPR is [●]% [if a redemption [upper] barrier event has [not] occurred (specify for each barrier event where different).] [The adjustment amount or adj is [●] [if a redemption [upper] barrier event has [not] occurred.]

[Such redemption amount is subject to a [maximum amount (cap) of [●] ] [if a redemption [upper] barrier event has [not] occurred]] [minimum amount (floor) of [●][if a redemption [upper] barrier event has [not] occurred]] [maximum amount of [●] and minimum amount of [●] (collar) [if a redemption [upper] barrier event has [not] occurred] (*specify for each barrier event where different*).

## SECTION D – RISKS

Element	Title	
<b>D.2</b>	Key risks regarding the Issuers	<p>[Citigroup Inc.][CGMFL] believes that the factors summarised below may affect its ability to fulfil its obligations under the Notes. All of these factors are contingencies which may or may not occur and [Citigroup Inc.][CGMFL] is not in a position to express a view on the likelihood of any such contingency occurring.</p> <p>There are certain factors that may affect [CGMFL's/Citigroup Inc.'s] ability to fulfil its obligations under any Notes issued by it [and CGML's ability to fulfil its obligations as guarantor in respect of Notes issued by CGMFL], including that such ability is dependent on the earnings of Citigroup Inc.'s subsidiaries, that Citigroup Inc. may be required to apply its available funds to support the financial position of its banking subsidiaries, rather than fulfil its obligations under the Notes, that Citigroup Inc.'s business may be affected by economic conditions, credit, market and market liquidity risk, by competition, country risk, operational risk, fiscal and monetary policies adopted by relevant regulatory authorities, reputational and legal risks and certain regulatory considerations.</p> <p>[There are certain additional factors that may affect CGMFL's ability to fulfil its obligations under the Notes issued by it, including that such ability is dependent on the group entities to which it on-lends the funds raised through the issue of the Notes performing their obligations in respect of such funding in a timely manner. In addition, such ability and CGML's ability to fulfil its obligations as guarantor in respect of Notes issued by CGMFL is dependent on economic conditions, credit, market and market liquidity risk, by competition, country risk, operational risk, fiscal and monetary policies adopted by relevant regulatory authorities, reputational and legal risks and certain regulatory considerations.]</p>
<b>D.3</b>	Key risks regarding the Notes	<p>Investors should note that the Notes (including Notes that are expressed to redeem at par or above) are subject to the credit risk of [CGMFL and CGML][Citigroup Inc.]. Furthermore, the Notes may be sold, redeemed or repaid early, and if so, the price for which a Note may be sold, redeemed or repaid early may be less than the investor's initial investment. There are other certain factors which are material for the purpose of assessing the risks associated with investing in any issue of Notes, which include, without limitation, (i) risk of disruption to valuations, (ii) adjustment to the conditions, substitution of the relevant underlying(s) and/or early redemption following an adjustment event or an illegality, (iii) postponement of interest payments and/or minimum and/or maximum limits imposed on interest rates, (iv) cancellation or scaling back of public offers or the issue date being deferred, (v) hedging activities of the Issuer and/or any of its affiliates, (vi) conflicts of interest between the Issuer and/or any of its affiliates and holders of Notes, (vii) modification of the terms and conditions of Notes by majority votes binding all holders, (viii) discretions of the Issuer and Calculation Agent being exercised in a manner that affects the value of the Notes or results in early redemption, (ix) change in law, (x) illiquidity of denominations consisting of integral multiples, (xi) payments being subject to withholding or other taxes, (xii) fees and commissions not being taken into account when determining secondary market prices of Notes, (xiii) there being no secondary market, (xiv) exchange rate risk, (xv) market value of Notes being affected by various factors independent of the creditworthiness of [CGMFL and CGML][Citigroup Inc.] such as</p>

		<p>market conditions, interest and exchange rates and macro-economic and political conditions and (xvi) credit ratings not reflecting all risks.</p> <p>See also Element D.6 below</p>
<b>D.6</b>	Key risks regarding the Notes and risk warning	<p><b>INVESTORS MAY LOSE THEIR ENTIRE INVESTMENT OR PART OF IT AS THE CASE MAY BE. PROSPECTIVE INVESTORS SHOULD READ THE BASE PROSPECTUS IN ITS ENTIRETY AND FORM THEIR OWN CONCLUSIONS REGARDING [CITIGROUP INC.][CGMFL].</b></p> <p>An investment in Notes may entail significant risks and risks that are not associated with an investment in a debt instrument with a fixed principal amount and which bears interest at either a fixed rate or at a floating rate determined by reference to published interest rate references. The risks include, without limitation, the possibility of significant changes in the prices of the relevant underlying(s). Such risks generally depend on factors over which [CGMFL and CGML][Citigroup Inc.] do[es] not have control and which cannot readily be foreseen, such as economic and political events and the supply of and demand for the relevant underlying(s). In recent years, currency exchange rates and prices for various underlying(s) have been highly volatile, and such volatility may be expected in the future. Fluctuations in any such rates or prices that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of the Notes. The risk of loss as a result of the linkage to the relevant underlying(s) can be substantial.</p>

## SCHEDULE 4

### PORTUGUESE TAXATION

The following is a summary of the current Portuguese tax treatment at the date hereof in relation to certain aspects of payments of principal and income in respect of Notes. The statements do not deal with other Portuguese tax aspects regarding Notes and relate only to the position of persons who are absolute beneficial owners of Notes. The following is a general guide, does not constitute tax or legal advice and should be treated with appropriate caution. Noteholders who are in any doubt as to their tax position should consult their professional advisers.

The reference to "investment income" and "capital gains" in the paragraphs below means "investment income" and "capital gains" as understood in Portuguese tax law. The statements below do not take any account of any different definitions of "investment income" or "capital gains" which may prevail under any other law or which may be created by the Conditions of the Notes or any related documentation.

#### *Noteholder's Income Tax*

Income generated by the holding (distributions) and disposal of Notes is generally subject to the Portuguese tax regime for debt securities (*obrigações*).

Economic benefits derived from amortisation, reimbursement premiums and other types of remuneration arising from Notes are designated as investment income (*rendimentos de capital*) for Portuguese tax purposes.

#### *Withholding tax*

Under current Portuguese law, investment income payments in respect of Notes made to Portuguese tax resident companies are included in their taxable income and are subject to a corporate income tax at a rate of (i) 23 per cent. (the Portuguese State Budget Proposal for 2015 foresees a reduction of the general corporate income tax rate from 23 per cent. to 21 per cent. which if approved by the Parliament is expected to enter into force from 1 January 2015 onwards) or (ii) 17 per cent. if the taxpayer is a small or medium enterprise, as established in Decree-Law no. 372/2007, of 6 November 2007, and with taxable profits up to Euro 15,000 and 23 per cent. (the Portuguese State Budget Proposal for 2015 foresees a reduction of the general corporate income tax rate from 23 per cent. to 21 per cent. which if approved by the Parliament is expected to enter into force from 1 January 2015 onwards) on profits in excess to which may be added a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. of its taxable income. Corporate taxpayers with a taxable income of more than Euro 1,500,000 are also subject to State surcharge (*derrama estadual*) of (i) 3 per cent. on the part of its taxable profits exceeding Euro 1,500,000 up to Euro 7,500,000, (ii) 5 per cent. on the part of the taxable profits that exceeds Euro 7,500,000 up to Euro 35,000,000, and (iii) 7 per cent. on the part of the taxable profits that exceeds Euro 35,000,000.

As regards to investment income on Notes made to Portuguese tax resident individuals, they are subject to personal income tax which shall be withheld at the current final withholding rate of 28 per cent. if there is a Portuguese resident paying agent, unless the individual elects to include it in his taxable income, subject to tax at the current progressive rates of up to 48 per cent. An additional income tax rate will be due on the part of the taxable income exceeding Euro 80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding Euro 80,000 up to Euro 250,000, and (ii) 5 per cent. on the remaining part (if any) of the taxable income exceeding Euro 250,000. Also, if the option of income aggregation is made an additional surcharge at the rate of 3.5 per cent. will also be due over the amount that exceeds the annual amount of the monthly minimum guaranteed wage. In this case, the tax withheld is deemed to be a payment on account on the final tax due.

Investment income payments due by non-resident entities to Portuguese tax resident individuals are subject to an autonomous taxation at a rate of 28 per cent. whenever those payments are not subject to Portuguese withholding tax unless the individual elects to include it in his taxable income, subject to tax at the current progressive rates of up to 48 per cent. An additional income tax rate will be due on the part of the taxable income exceeding Euro 80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding Euro 80,000 up to Euro 250,000, and (ii) 5 per cent. on the remaining part (if any) of the taxable income exceeding Euro 250,000. Also, if the option of income aggregation is made

an additional surcharge at the rate of 3.5 per cent. will also be due over the amount that exceeds the annual amount of the monthly minimum guaranteed wage. In this case, the tax withheld is deemed to be a payment on account on the final tax due.

Investment income paid or made available to accounts opened in the name of one or more accountholders acting on behalf of one or more unidentified third parties is subject to a final withholding tax rate of 35 per cent., unless the relevant beneficial owner(s) of the income is/are identified and as a consequence the tax rates applicable to such beneficial owner(s) will apply.

None of the relevant Issuer and, where the relevant Issuer is CGMFL, the CGMFL Guarantor, are responsible for withholding at source any amount in respect of Portuguese withholding tax, whenever applicable, on interest payments arising from the Notes.

Payments of principal on Notes are not subject to Portuguese withholding tax. For these purposes, principal shall mean all payments carried out without any income component.

### *Capital Gains*

Under current Portuguese law, capital gains obtained by Portuguese tax resident companies on the disposal of Notes issued by non-resident entities are included in their taxable income and are subject to corporate income tax at a rate of (i) 23 per cent. (the Portuguese State Budget Proposal for 2015 foresees a reduction of the general corporate income tax rate from 23 per cent. to 21 per cent. which if approved by the Parliament is expected to enter into force from 1 January 2015 onwards) or (ii) 17 per cent. if the taxpayer is a small or medium enterprise, as established in Decree-Law no. 372/2007, of 6 November 2007, and with taxable profits up to Euro 15,000 and 23 per cent. (the Portuguese State Budget Proposal for 2015 foresees a reduction of the general corporate income tax rate from 23 per cent. to 21 per cent. which if approved by the Parliament is expected to enter into force from 1 January 2015 onwards) on profits in excess to which may be added a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. of its taxable income. Corporate taxpayers with a taxable income of more than Euro 1,500,000 are also subject to State surcharge (*derrama estadual*) of (i) 3 per cent. on the part of its taxable profits exceeding Euro 1,500,000 up to Euro 7,500,000, (ii) 5 per cent. on the part of the taxable profits that exceeds Euro 7,500,000 up to Euro 35,000,000, and (iii) 7 per cent. on the part of the taxable profits that exceeds Euro 35,000,000.

Capital gains obtained by individuals who are resident in Portugal for tax purposes on the disposal of Notes are subject to a special tax rate of 28 per cent., levied on the positive difference between the capital gains and capital losses of each year unless the individual opts to include the income in his taxable income, subject to tax at the current progressive rates of up to 48 per cent. An additional income tax rate will be due on the part of the taxable income exceeding Euro 80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding Euro 80,000 up to Euro 250,000, and (ii) 5 per cent. on the remaining part (if any) of the taxable income exceeding Euro 250,000. Also, if the option of income aggregation is made, an additional surcharge at the rate of 3.5 per cent. will also be due over the amount that exceeds the annual amount of the monthly minimum guaranteed wage.

### *EU Savings Directive*

Portugal has implemented EC Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income into Portuguese law through Decree-Law no 62/2005, of 11 March 2005, as amended by Law no 39-A/2005, of 29 July 2005.
