This Summary contains all the Elements required to be included in a summary for Notes, the Issuer and the CGMHI Guarantor (where the Issuer is CGMHI) or the CGMFL Guarantor (where the Issuer is CGMFL). Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the type of securities, issuer and guarantor, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

SECTION D – RISKS

Element	Title	
D.2	Key risks regarding the Issuers	<p>[There are certain factors that may affect [CGMFL's/Citigroup Inc.'s/CGMHI's] ability to fulfil its obligations under any Notes issued by it][and [CGML's/Citigroup Inc.'s] ability to fulfil its obligations as guarantor in respect of Notes issued by [CGMFL/CGMHI]] including that such ability is dependent on the earnings of Citigroup Inc.'s subsidiaries, that Citigroup Inc. may be required to apply its available funds to support the financial position of its banking subsidiaries, rather than fulfil its obligations under the Notes, that Citigroup Inc.'s business may be affected by economic conditions, credit, market and market liquidity risk, by competition, country risk, operational risk, fiscal and monetary policies adopted by relevant regulatory authorities, reputational and legal risks and certain regulatory considerations.]</p> <p>[CGMHI is a holding company that does not engage in any material amount of business activities that generate revenues. CGMHI services its obligations primarily with dividends and advances from its subsidiaries. Its subsidiaries that operate in the securities businesses can only pay dividends if they are in compliance with applicable regulatory requirements imposed on them by federal and state regulatory authorities. Their respective subsidiaries may also be subject to credit agreements that also may restrict their ability to pay dividends. If such subsidiaries do not realise sufficient earnings to satisfy applicable regulatory requirements, or if such requirements are changed to further restrict the ability of such subsidiaries to pay dividends to CGMHI, CGMHI's ability to fulfil its obligations under Notes issued by it may be adversely affected. Notes issued by CGMHI will have the benefit of a guarantee of Citigroup Inc. Notwithstanding the foregoing, prospective investors should note that Events of Default in respect of the CGMHI Guarantor are limited to the events stated in Conditions 9(a)(i) and 9(a)(ii) of the General Conditions of the Notes relating to default in payment of principal or interest in respect of the Notes but will not include the insolvency or bankruptcy of the CGMHI Guarantor (or any similar event), any other default of the CGMHI Guarantor or the CGMHI Deed of Guarantee being (or being claimed not to be) in full force and effect. Therefore, even though the CGMHI Guarantor may be declared insolvent or have entered into bankruptcy proceedings or disclaimed the CGMHI Deed of Guarantee, holders of Notes issued by CGMHI will not be able to trigger an Event of Default under the Notes and thus will not be able to cause the Notes to be immediately due and payable, and the Notes will not redeem until maturity (unless there has been an Event of Default due to non-payment of interest or principal or bankruptcy or other default of CGMHI in the meantime). It is possible that holders may receive a lower return at maturity than if they were able to accelerate the Notes for immediate repayment in such circumstances.]</p> <p>[There are certain factors that may affect [CGMHI's/CGMFL's] ability to fulfil its obligations under the Notes issued by it, including that such ability is dependent on the group entities to which it on-lends and funds raised through the issue of the Notes performing their obligations in respect of such funding in a timely manner. In addition, such ability and [Citigroup Inc.'s/CGML's] ability to fulfil its obligations as guarantor in respect of Notes issued by [CGMHI/CGMFL] is dependent on economic conditions, credit, market and market liquidity risk, by competition, country risk, operational risk, fiscal and monetary policies adopted by relevant regulatory authorities, reputational and legal risks</p>

		and certain regulatory considerations.]
D.3	Key risks regarding the Notes	<p>Investors should note that the Notes (including Notes that are expressed to redeem at par or above) are subject to the credit risk of [CGMFL and CGML][Citigroup Inc.][CGMHI and Citigroup Inc.]. Furthermore, the Notes may be sold, redeemed or repaid early, and if so, the price for which a Note may be sold, redeemed or repaid early may be less than the investor's initial investment. There are other certain factors which are material for the purpose of assessing the risks associated with investing in any issue of Notes, which include, without limitation, [(i) risk of disruption to valuations,] [(ii) adjustment to the conditions, substitution of the relevant underlying(s) [and/or early redemption following [an adjustment event] [or] [an illegality],] [(iii) postponement of interest payments and/or minimum and/or maximum limits imposed on interest rates,] [(iv) cancellation or scaling back of public offers or the issue date being deferred,] [(v) hedging activities of the Issuer and/or any of its affiliates,] [(vi) conflicts of interest between the Issuer and/or any of its affiliates and holders of Notes,] (vii) modification of the terms and conditions of Notes by majority votes binding all holders, (viii) discretions of the Issuer and Calculation Agent being exercised in a manner that affects the value of the Notes or results in early redemption, [(ix) change in law,] [(x) illiquidity of denominations consisting of integral multiples,] (xi) payments being subject to withholding or other taxes, [(xii) fees and commissions not being taken into account when determining secondary market prices of Notes,] [(xiii) there being no secondary market,] [(xiv) exchange rate risk,] (xv) market value of Notes being affected by various factors independent of the creditworthiness of [CGMFL and CGML][Citigroup Inc.][CGMHI and Citigroup Inc.] such as market conditions, interest and exchange rates and macro-economic and political conditions and (xvi) credit ratings not reflecting all risks.</p> <p>See also Element D.6 below</p>
D.6	Key risks regarding the Notes and risk warning	<p>INVESTORS MAY LOSE THEIR ENTIRE INVESTMENT OR PART OF IT AS THE CASE MAY BE. [CITIGROUP INC.][CGMHI][CGMFL] DOES NOT REPRESENT THAT THE LIST BELOW IS COMPREHENSIVE. PROSPECTIVE INVESTORS SHOULD READ THE BASE PROSPECTUS IN ITS ENTIRETY AND FORM THEIR OWN CONCLUSIONS REGARDING [CITIGROUP INC.] [CGMHI] [CGMFL].</p> <p>An investment in Notes may entail significant risks and risks that are not associated with an investment in a debt instrument with a fixed principal amount and which bears interest at either a fixed rate or at a floating rate determined by reference to published interest rate references. The risks of a particular Note will depend on the terms of such Note, but may include, without limitation, the possibility of significant changes in the prices of the relevant Underlying(s). Such risks generally depend on factors over which none of the relevant Issuer and, where the relevant Issuer is CGMHI, the CGMHI Guarantor or where the relevant Issuer is CGMFL, the CGMFL Guarantor, has control and which cannot readily be foreseen, such as economic and political events and the supply of and demand for the relevant Underlying(s). In recent years, currency exchange rates and prices for various Underlying(s) have been highly volatile, and such volatility may be expected in the future. Fluctuations in any such rates or prices that have occurred in the past are not necessarily indicative, however, of fluctuations that may occur during the term of any Note. The risk of loss as a result of the linkage to the relevant Underlying(s) can be substantial. Investors should note that their investment in Notes, may</p>

		expose them to payments and/or deliveries which is/are determined by reference to one or more values of security indices, inflation indices, commodity indices, commodities, shares, depositary receipts, exchange traded funds, mutual funds, currencies, warrants, proprietary indices (which may be linked or referenced to one or more asset classes), dividend futures contracts, interest rates or other bases of reference of formulae (the Underlying(s)), either directly or inversely, and for physically settled Notes this may result in the Notes being redeemable for certain assets.

SCHEDULE 3

AMENDMENTS TO THE RISK FACTORS

The risk factors set out in Section B (*Risk Factors*) on pages 99 to 166 of the Base Prospectus are amended as follows:

1. The second paragraph of the risk factor entitled "*Credit Ratings – Rating Agencies of the Issuers, the CGMHI Guarantor and the CGMFL Guarantor*" on page 101 of the Base Prospectus shall be deleted and replaced by the following:

"S&P is not established in the European Union and has not applied for registration under the CRA Regulation. The S&P ratings have been endorsed by S&P Global Ratings Europe Limited (**SPGRE**). SPGRE is established in the European Union and registered under the CRA Regulation. As such SPGRE is included in the list of credit rating agencies published by the European Securities Market Authority (**ESMA**) on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the CRA Regulation. ESMA has indicated that ratings issued in the United States of America which have been endorsed by SPGRE may be used in the European Union by the relevant market participants."

2. The following risk factor is inserted at the end of the risk factor entitled "*Certain Considerations associated with Notes relating to rates*" on page 147 of the Base Prospectus:

"Substitute or Successor Rates

If an Underlying which is a Rate has been discontinued or is permanently no longer being published, notwithstanding anything to the contrary in the Conditions, the Calculation Agent may determine, in its sole and absolute discretion, any relevant underlying closing level for such Rate by reference to an industry-accepted substitute or successor rate (or, if none, a comparable alternative) and may make such adjustments to the Conditions as it determines necessary or appropriate to reflect any industry-accepted practices for the successor or comparable rate, including applying an adjustment factor. Any such amendments may result in payments under the Notes being different from those originally anticipated."

3. The following risk factor is inserted after the risk factor entitled "*Benchmark Reforms and discontinuation – Future discontinuance of an –IBOR may adversely affect the value of Notes which reference such benchmark*" on page 159 of the Base Prospectus:

"Substitute or Successor Rates

If one or more rates comprising an Interest Rate in respect of the Notes has been discontinued or is permanently no longer being published, notwithstanding anything to the contrary in the Conditions, the Calculation Agent may determine, in its sole and absolute discretion, the relevant Interest Rate by reference to an industry-accepted substitute or successor rate (or, if none, a comparable alternative) and may make such adjustments to the Conditions as it determines necessary or appropriate to reflect any industry-accepted practices for the successor or comparable rate, including applying an adjustment factor. Any such amendments may result in an Interest Rate in respect of the Notes which is different from the rate originally anticipated and also different from the rate that would have been determined had such rate been determined as specified under "*Benchmark reforms and discontinuation – Future discontinuance of an –IBOR may adversely affect the value of Notes which reference such benchmark*" above."

SCHEDULE 4

AMENDMENTS TO THE TERMS AND CONDITIONS OF THE NOTES

The Terms and Conditions of the Notes set out in Section F (*Terms and Conditions of the Notes*) on pages 336 to 612 of the Base Prospectus are amended as follows:

Substitute or Successor Rates

1. Underlying Schedule 13 (*Rate Conditions*) beginning on page 458 of the Base Prospectus is amended by the insertion of the following as a new Rate Condition 6(e) on page 460 thereof:

"(h) *Substitute or Successor Rates*

Notwithstanding anything to the contrary in the Conditions, if, on or prior to the date on which any Underlying Closing Level in respect of a Rate is to be determined in respect of the Notes, the Calculation Agent determines that such Rate (each a **Disrupted Rate**) has been discontinued or is permanently no longer being published, the Calculation Agent may determine the relevant Underlying Closing Level by reference to (a) a substitute or successor rate that it has determined is the industry-accepted substitute or successor rate for the relevant Disrupted Rate or (b) if it determines there is no such industry-accepted substitute or successor rate, a substitute or successor rate that it determines is most comparable to the Disrupted Rate (in either case, the **Successor Rate**).

Upon selection of a Successor Rate, such Successor Rate shall be deemed to be the relevant Underlying in place of the Disrupted Rate and the Calculation Agent may make such adjustments to the Conditions of the Notes as it determines necessary or appropriate to reflect any industry-accepted practices for the Successor Rate and the effective date of any such adjustment. For the avoidance of doubt, any such adjustments may include adjustments to the definition of Scheduled Trading Day, Disrupted Day and any other relevant methodology or definition for determining the relevant Rate and may also include the application of any adjustment factor it determines is needed to make the Successor Rate comparable to the relevant Disrupted Rate. Notice of the selection of any Successor Rate and any related adjustments to the Conditions shall be notified to the Issuer and any stock exchange on which the Notes are for the time being listed and notice thereof shall also be published in accordance with General Condition 13 (*Notices*).

Any determination made by the Calculation Agent in accordance with this Rate Condition 3.2(h) shall be made in its sole and absolute discretion, after consulting any source it deems to be reasonable."

2. Valuation and Settlement Condition 3.2 (*Fixed Rate And Floating Rate Interest Amounts – Interest on Floating Rate Notes*) beginning on page 597 of the Base Prospectus is amended by the insertion of the following as a new Valuation and Settlement Condition 3.2(h) on page 600 thereof:

"(h) *Substitute or Successor Rates*

Notwithstanding anything to the contrary in the Conditions, if, on or prior to the date on which any Interest Rate is to be determined in respect of the Notes, the Calculation Agent determines that one or more rates comprising such Interest Rate (each a **Disrupted Rate**) has been discontinued or is permanently no longer being published, the Calculation Agent may determine the relevant Interest Rate by reference to (a) a substitute or successor rate that it has determined is the industry-accepted substitute or successor rate for the relevant Disrupted Rate or (b) if it determines there is no such industry-accepted substitute or successor rate, a substitute or successor rate that it determines is most comparable to the Disrupted Rate (in either case, the **Successor Rate**).

Upon selection of a Successor Rate, the Calculation Agent may make such adjustments to the Conditions of the Notes as it determines necessary or appropriate to reflect any industry-accepted practices for the Successor Rate and the effective date of any such adjustment. For the avoidance of doubt, any such adjustments may include adjustments to any Day Count Fraction, any Business Day Convention, the definition of Business Day, any Interest Determination Date and any other relevant methodology or definition for calculating the relevant Interest Rate and may also include the application of any adjustment factor it determines is needed to make the Successor Rate comparable to the relevant Disrupted Rate. Notice of the selection of any Successor Rate and any related adjustments to the Conditions shall be notified to the Issuer, the Fiscal Agent and any stock exchange on which the Notes are for the time being listed and notice thereof shall also be published in accordance with General Condition 13 (*Notices*).

Any determination made by the Calculation Agent in accordance with this Valuation and Settlement Condition 3.2(h) shall be made in its sole and absolute discretion, after consulting any source it deems to be reasonable."
