### AMENDMENTS TO CREDIT RATINGS

The information set out in the cover pages of the Base Prospectus ("*Credit Ratings*") on pages xv to xvii of the Base Prospectus shall be amended by deleting the third paragraph and corresponding footnote 3 under the section entitled "*Credit Ratings*" on page xvi of the Base Prospectus in their entirety and replacing them with the following new paragraph and corresponding footnote 3:

"CGMFL has a long term/short term senior debt rating of A+/A-1 by S&P and A+/F1 by Fitch, and a long term senior debt rating of A1 by Moody's.<sup>3</sup>

<sup>3</sup> "A+" by S&P: An obligor rated "A" has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. The addition of a plus sign shows the relative standing within the rating category (source: [www.standardandpoors.com](http://www.standardandpoors.com)).

"A-1" by S&P: An obligor rated "A-1" has strong capacity to meet its financial commitments. It is rated in the highest category by S&P Global Ratings (source: [www.standardandpoors.com](http://www.standardandpoors.com)).

"A+" by Fitch: "A" ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings. The modifiers '+ ' or '- ' may be appended to a rating to denote relative status within major rating categories (source: [www.fitchratings.com](http://www.fitchratings.com)).

"F1" by Fitch: Indicates the strongest intrinsic capacity for timely payment of financial commitments (source: [www.fitchratings.com](http://www.fitchratings.com)).

"A1" by Moody's: Obligations rated "A" are judged to be upper-medium grade and are subject to low credit risk. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category (source: [www.moodys.com](http://www.moodys.com)).".

### SCHEDULE 3

#### AMENDMENTS TO THE RISK FACTORS

The risk factors set out in Section B of the Base Prospectus entitled "*Risk Factors*" shall be amended as follows:

- (a) the following new risk factor entitled "*The military action by Russia in Ukraine, and related sanctions, export controls and similar actions or laws could adversely affect the Group's business activities and customers*" shall be inserted immediately after the risk factor entitled "*The ability of CGMFL to fulfil its obligations under the Securities issued by it is dependent on CGML performing its counterparty obligations owed to CGMFL*" on page 3 of the Base Prospectus:

***"The military action by Russia in Ukraine, and related sanctions, export controls and similar actions or laws could adversely affect the Group's business activities and customers***

The recent action of Russian military forces and support personnel in Ukraine has escalated tensions between Russia and the U.S., NATO, the European Union and the UK. The U.S. has imposed, and is likely to impose material additional, financial and economic sanctions and export controls against certain Russian organisations and/or individuals, with similar actions implemented and/or planned by the European Union, the UK and other jurisdictions. The packages of financials and economic sanctions imposed by the U.S., the UK, and the European Union, in various ways, constrain transactions with numerous Russian entities and individuals; transactions in Russian sovereign debt; and investment, trade, and financing to, from, or in certain regions of Ukraine. The Group's ability to engage in activity with certain consumer and institutional businesses in Russia and Ukraine or involving certain Russian or Ukrainian businesses and customers is dependent in part upon whether such engagement is restricted under any current or expected U.S., European Union, UK or other countries' sanctions and laws, or is otherwise discontinued in light of these developments. Sanctions and export controls, as well as any actions by Russia, could adversely affect the Group's business activities and customers in and from Russia and Ukraine. Moreover, actions by Russia, and any further measures taken by the U.S. or its allies, could have negative impacts on regional and global financial markets and economic conditions, including without limitation global energy markets. The extent of the impact on the Group will continue to depend significantly on future developments, which are uncertain and cannot be predicted.

Any negative impact of Russia's actions in Ukraine, and related sanctions, export controls and similar actions or laws on the Group, including the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor, could adversely affect the ability of the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor to fulfil its obligations under the Securities, and the value of and return on the Securities may also be adversely affected."; and

- (b) the risk factor entitled "*Rapidly evolving challenges and uncertainties related to the COVID-19 pandemic will likely continue to have negative impacts on the Group's businesses and results of operations and financial condition*" on pages 3 to 5 of the Base Prospectus shall be deleted in its entirety and replaced with the following:

***"Rapidly evolving challenges and uncertainties related to the COVID-19 pandemic in the U.S. and globally will likely continue to have negative impacts on the Group's businesses and results of operations and financial condition***

The COVID-19 pandemic has affected all of the countries and jurisdictions in which the Group operates, including severely impacting global health, financial markets, consumer and business spending and economic conditions. The extent of the future pandemic impacts remain uncertain and will likely evolve by region, country or state, largely depending on the duration and severity of the public health consequences, including the duration and further spread of the coronavirus as well as any variants becoming more prevalent and impactful; further production, distribution, acceptance and effectiveness of vaccines; availability and efficiency of testing; the public

response; and government actions. The future impacts to global economic conditions may include, among others:

- further disruption of global supply chains;
- higher inflation;
- higher interest rates;
- significant disruption and volatility in financial markets;
- additional closures, reduced activity and failures of many businesses, leading to loss of revenues and net losses;
- further institution of social distancing and restrictions on businesses and the movement of the public in and among the U.S. and other countries; and
- reduced U.S. and global economic output.

The pandemic has had, and may continue to have, negative impacts on the Group's businesses and overall results of operations and financial condition, which could be material. The extent of the impact on the Group's operations and financial performance, including its ability to execute its business strategies and initiatives, will continue to depend significantly on future developments in the U.S. and globally. Such developments are uncertain and cannot be predicted, including the course of the coronavirus, as well as any weakness or slowing in the economic recovery or a further economic downturn, whether due to further supply chain disruptions, inflation trends, higher interest rates or otherwise.

The pandemic may not be sufficiently contained for an extended period of time. A prolonged health crisis could reduce economic activity in the U.S. and other countries, resulting in additional declines or weakness in employment trends and business and consumer confidence. These factors could negatively impact global economic activity and markets; cause a continued decline in the demand for the Group's products and services and in its revenues; further increase the Group's credit and other costs; and may result in impairment of long-lived assets or goodwill. These factors could also cause an increase in the Group's balance sheet, risk-weighted assets and allowance for credit losses, resulting in a decline in regulatory capital ratios or liquidity measures, as well as regulatory demands for higher capital levels and/or limitations or reductions in capital distributions (such as common share repurchases and dividends). Moreover, any disruption or failure of the Group's performance of, or its ability to perform, key business functions, as a result of the continued spread of COVID-19 or otherwise, could adversely affect the Group's operations.

The impact of the pandemic on the Group's consumer and corporate borrowers will vary by sector or industry, with some borrowers experiencing greater stress levels, particularly as credit and customer assistance support further winds down, which could lead to increased pressure on their results of operations and financial condition, increased borrowings or credit ratings downgrades, thus likely leading to higher credit costs for the Group. These borrowers include, among others, businesses that are more directly impacted by the institution of social distancing, the movement of the public and store closures. In addition, stress levels ultimately experienced by the Group's borrowers may be different from and more intense than assumptions made in prior estimates or models used by the Group, resulting in an increase in the Group's allowance for credit losses or net credit losses, particularly as the benefits of fiscal stimulus and government support programs diminish.

Ongoing legislative and regulatory changes in the U.S. and globally to address the economic impact from the pandemic could further affect the Group's businesses, operations and financial performance. The Group could also face challenges, including legal and reputational, and scrutiny in its efforts to provide relief measures. Such efforts have resulted in, and may continue to result in, litigation, including class actions, and regulatory and government actions and proceedings. Such actions may result in judgments, settlements, penalties and fines adverse to

the Group. In addition, the different types of government actions could vary in scale and duration across jurisdictions and regions with varying degrees of effectiveness.

The Group has taken measures to maintain the health and safety of its colleagues; however, these measures could result in additional expenses, and illness of employees could negatively affect staffing for a period of time. In addition, the Group's ability to recruit, hire and onboard colleagues in key areas could be negatively impacted by pandemic restrictions as well as the Group's COVID-19 vaccination requirement.

Further, it is unclear how the macroeconomic or business environment or societal norms may be impacted after the pandemic. The post-pandemic environment may undergo unexpected developments or changes in financial markets, fiscal, monetary, tax and regulatory environments and consumer customer and corporate client behaviour. These developments and changes could have an adverse impact on the Group's results of operations and financial condition. Ongoing business and regulatory uncertainties and changes may make the Group's longer-term business, balance sheet and strategic and budget planning more difficult or costly. The Group and its management and businesses may also experience increased or different competitive and other challenges in this environment. To the extent that it is not able to adapt or compete effectively, the Group could experience loss of business and its results of operations and financial condition could suffer.

Any negative impact of the COVID-19 pandemic on the Group, including the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor, could adversely affect the ability of the relevant Issuer, the CGMHI Guarantor or the CGMFL Guarantor to fulfil its obligations under the Securities, and consequently the value of and return on such Securities may also be adversely affected."

## SCHEDULE 4

### AMENDMENTS TO INVESTMENT CONSIDERATIONS

The investment considerations set out in Section C of the Base Prospectus entitled "*Investment Considerations*" on pages 82 to 97 of the Base Prospectus shall be amended by deleting the section entitled "*Citigroup Inc., Its Management and Its Businesses Must Continually Review, Analyse and Successfully Adapt to Ongoing Regulatory and Legislative Uncertainties and Changes in the U.S. and Globally*" on pages 90 to 91 of the Base Prospectus in its entirety and replacing it with the following:

***"Citigroup Inc., Its Management and Its Businesses Must Continually Review, Analyse and Successfully Adapt to Ongoing Regulatory and Legislative Uncertainties and Changes in the U.S. and Globally***

Despite the adoption of final regulations and laws in numerous areas impacting Citigroup Inc. and its businesses over the past several years, Citigroup Inc., its management and its businesses continually face ongoing regulatory and legislative uncertainties and changes, both in the United States of America (U.S.) and globally. While the areas of ongoing regulatory and legislative uncertainties and changes facing Citigroup Inc. are too numerous to list completely, various examples include, but are not limited to (i) potential fiscal, monetary, regulatory, tax and other changes arising from the U.S. federal government and other governments, including as a result of the differing priorities of the current U.S. presidential administration, changes in regulatory leadership or focus and actions of Congress or in response to the pandemic; (ii) potential changes to various aspects of the regulatory capital framework and requirements applicable to Citigroup Inc.; and (iii) future legislative and regulatory requirements in the U.S. and globally related to climate change, including any new disclosure requirements. When referring to "regulatory", Citigroup Inc. is including both formal regulation and the views and expectations of its regulators in their supervisory roles.

U.S. and international regulatory and legislative initiatives have not always been undertaken or implemented on a coordinated basis, and areas of divergence have developed and continue to develop with respect to the scope, interpretation, timing, structure or approach, leading to inconsistent or even conflicting requirements, including within a single jurisdiction. For example, in May 2019, the European Commission adopted, as part of Capital Requirements Directive V (CRD V), a new requirement for major banking groups headquartered outside the EU (which would include Citigroup Inc.) to establish an intermediate EU holding company where the foreign bank has two or more institutions (broadly meaning banks, broker-dealers and similar financial firms) established in the EU. While in some respects the requirement mirrors an existing U.S. requirement for non-U.S. banking organisations to form U.S. intermediate holding companies, the implementation of the EU holding company requirement could lead to additional complexity with respect to Citigroup Inc.'s resolution planning, capital and liquidity allocation and efficiency in various jurisdictions.

Moreover, ongoing regulatory and legislative uncertainties and changes make Citigroup Inc.'s and its management's long-term business, balance sheet and strategic budget planning difficult, subject to change and potentially more costly. U.S. and other regulators globally have implemented and continue to discuss various changes to certain regulatory requirements, which would require ongoing assessment by management as to the impact to Citigroup Inc., its businesses and business planning. For example, while the Basel III post-crisis regulatory reforms and revised market risk framework have been finalised at the international level, there remain significant uncertainties with respect to the integration of these revisions into the U.S. regulatory capital framework. Business planning is required to be based on possible or proposed rules or outcomes, which can change dramatically upon finalisation, or upon implementation or interpretive guidance from numerous regulatory bodies worldwide, and such guidance can change.

Regulatory and legislative changes have also significantly increased Citigroup Inc.'s compliance risks and costs and can adversely affect Citigroup Inc.'s businesses, results of operations and financial condition."

## SCHEDULE 5
